Call to Order

Chairman Todd A. Frederick called the meeting to order at 7:00 PM.

Pledge of Allegiance

A. Consent Agenda
   1. June 29, 2020 Meeting Minutes
   2. Business License Renewals
      • Union Bluff Meeting House

   Moved by Robert Palmer, seconded by Marilyn McLaughlin to accept the Consent Agenda with the following changes per Mike Estes on the June 29th Meeting Minutes Under Future Agendas, it states ‘How are we going to bring it into Town Hall?’ Mike Estes question was that he wanted a report from Steve on what departments are up and operating and at what percentage are they operating at? Vote 4-0, motion passes

B. Minutes

C. Chairman's Report

• Robert Palmer hopes Elizabeth Blanchard feels better. Hope everyone had a happy 4th of July. Encourages watching the musical 1776, also to vote next Tuesday.

• Mike Estes heard a couple of complaints from people about Webber Road and the cement walkway down to the beach. Can we put the rail back up? The first he heard about trash on the beach and maybe it was due to a busy weekend, should keep eye on this and make sure it does not continue.
• Marilyn McLaughlin is glad that people are abiding by the rules and social distancing. Reminding everyone that we are still in a pandemic. Keep practicing social distancing and go out and vote.

• Todd A. Frederick said to exercise your right to vote. Noticed there were long lines at Town Hall. Would like a future item on how we are going to manage that in the fall, an item for Steve Burns to address. He is following social media in regard to masks not being worn in Hannaford, they are not being enforced. Wondering if the manager there is starting to hear about it. Hopefully they will be vigilant about it. Talked about floating down York River on the weekend and to request the Harbor Master to go to the upper regions of the river and socialize and show the flag of York, another item for Steve Burns to address.

D. Manager’s Report

• Update on Finances, on FY21. Wendy Anderson put some rough numbers together and they were nailed to the IOS. Revenue no’s pretty good, expense no’s we still have another week and a half of payroll to apply to this. Revenues 10k shy in total. It will say 2 million under in expense’s but it won’t be, there will be other expenses coming in. The audit was behind 2 months ago, will probably be January/February time frame when in. Probably the fund balance will go up. Department heads did good job on not spending.

• Police report for July 4th holiday. Lifeguards Trevor and Derek saved 2 girls on short sands. Ryan Coote, our Parks foreman had a save of a diver out on the Nubble. Big shout out to all of them for the day. Parks and Rec. report was that high tides happened during the mid-day. There were some crowding at the beach during those times. Ambassadors were well received but no where for people to go. Less trash on sidewalk and beach than before. Only collected one dumpster full instead of 14 dumpsters. Carry in and carry out is working well for a transition year.

• Universal Waste Days are back. Bring tv’s, computers etc. to Witchtrot starting on July 18th with sticker, 1st and 3rd Saturday.

• Blinn house had some vandalism, they busted out the windows. Insurance won’t cover, since it’s a vacant building. It will have to be boarded up. Unfortunate damage.

• Important to go out and vote July 14th. Can still get absentee ballots now. The busiest May Referenda we have had since 1990 was last May. This could be a record turnout for a May vote. Please return the absentee ballots by Friday so the Town Clerk can process them on Saturday. She is still looking for a few volunteers for Saturday. Call her at the clerk’s office if you can at 363-1003, ask for Mary-Anne.
• July 27th we will try to have a BOS meeting at the School auditorium.

SUBJECT: Parks and Recreation Department Survey and summer programming

DISCUSSION OF OPTIONS AVAILABLE TO THE BOARD:

From June 4th – June 12th, the Parks and Recreation Department conducted a survey, through Survey Monkey, aimed at understanding the community’s appetite for modified, in-person, recreation programming during the pandemic. The survey was advertised through our social media platforms, in our e-newsletter and was direct e-mailed to our database of participants. We received 114 respondents. The feedback provided was helpful to us as we planned, and continue to plan, for modified and/or new programs.

I have provided a copy of the survey results for your thorough review (attached). In brief, here’s what we learned:

1. 60.53% would, knowing that programming would look different this summer, most likely, or would 100%, participate in in-person programs this summer.

2. 57.89% would, most likely, or would 100%, participate in in-person, small group, shorter duration, socially distanced, skill & drill-based athletic programs.

3. 51.75% would, most likely, or would 100%, participate in in-person, small group, shorter duration, socially distanced enrichment programs.

4. 57.02% would absolutely not, or were leaning toward not, participate in some form of day camp.

5. 58.78% would, most likely, or would 100%, participate in small group, socially distanced special events.

6. 33.33% would feel safe allowing their child to participate in recreation programming beginning in September (this was the majority, followed in order by July, June and August).
With this feedback, and understanding the need for socialization, enrichment and physical activity, we have moved forward with several opportunities for the community. As we are still in a period of community transmission, each of these programs presents the lowest level of risk and follows specific protocol (I have attached two samples) that are within the guidelines/recommendations from the CDC, NRPA, State of Maine, the Aspen Institute, and NAYS (National Alliance for Youth Sports), or are held virtually.

I am providing you with a list of the programs, broken out by age group, but have also provided our advertising documents so that you have the details. Additionally, I have included some photos.

Q1 In order to meet industry guidelines, and state and federal recommendations for keeping employees and participants safe, any in-person recreation programming will look different this summer. Modifications that include, but may not be limited to, wearing PPE (personal protective equipment), social distancing, frequent hand washing, smaller groups, shorter duration of hours, and temperature screenings, may be made. TOWN OF YORK PARKS & RECREATION
Hi Friends,

Welcome to Summer 2020 and the continuation of COVID-19. With the start of the summer, we will continue to keep the building and grounds closed to the public but will offer some outdoor programs onsite. Nancy’s Lunch To Go Drive Thru program will add an additional day so that lunch will now be available Tuesdays, Thursdays, and Fridays. Additionally, we will be providing a special lunch on Friday, July 24 - Yummy Lobster Rolls with all the extras. There will be a limited number of special meals available so register early; deadline date for register is Monday, July 13. The Dinner Club To Go program will be continuing for older adults living in York with American Legion Fish Fry on two Fridays in July and two new restaurants for two Wednesday evenings, Fat Tomato Grill and Foster’s Clambake. This program is made possible by our partnership with York Rotary and the cooperation of the various local restaurants and York American Legion. We hope this program is a win-win for all involved; York older adults get a restaurant dinner delivered, York restaurants get extra business, and York Rotary has a meaningful community service project. Please do take advantage of this program if you can as we’d like to continue it into the winter.

Due to the COVID-19, our Monday morning food bank program has been suspended indefinitely. If you are in need of food assistance, please contact York Community Service Association (YCSA) and speak with Maureen, 207-363-5594 ext. 3.

Our new fiscal year begins in July, which means we need to update our database plus non-residents need to pay the annual $25.00 user fee. Typically, we would have had you re-register in April - June but this year that was difficult due to COVID-19. Therefore, the last page of this Scoop includes the information we need to update you in our database. This is important if you want to continue to receive The Scoop as well as emails and other notices. You can either return the completed registration form via email or regular (postal) mail or call Janis Tuesdays - Fridays between 2-4pm and give her the information over the phone.

Enjoy,
Jo, CAL Director

Catch Kindness

York Parks & Recreation wants to “catch” our community’s actions of kindness, compassion and consideration. Actions big and small make an impact in someone’s life, whether we realize it or not. Ester Hicks says that “What you focus on grows” and we want to continually grow kindness in our community. York is a place that holds a dear spot in many people’s hearts, often because of the kindness shown. Nominate the caring actions of others by visitine (click here) and help us celebrate kindness!

CHILDCARE CONNECTION 2020

With day camp unavailable this summer, we realize the difficulties related to childcare for many families in our town.

Our hope is to bring together some of our counselor staff, as well as other young members of the community who are willing to provide childcare to families in need. This will provide our families with childcare, and our young people with job opportunities.

Parks & Recreation will provide registered parents with a list of young, York residents who are willing to help out with childcare this summer. It is the responsibility of the parent or guardian to screen, interview and agree on payment terms with participating childcare givers. Registration is FREE, but, you must register to receive updated caregiver lists.

Registration is now open online through our website and your Rec1 account.

We hope this service is helpful and can make the summer of 2020 FUN!!

Be on the lookout for some exciting news regarding JAC and OAC to go options this summer!

EMPLOYEE SPOTLIGHT

Naomi holds a Master’s degree in Museum Studies from the Harvard Extension School with a specialization in exhibition content development and public programming. She is interested in Universal Design, particularly as it pertains to conservation education and connection to place; she believes that the outdoors is for everyone. This will be her fourth summer atop Mount Agamenticus. As Outreach and Education Coordinator, she manages outreach efforts, and engages with school groups and seasonal visitors to help ensure that the Conservation Program’s mission of balancing wildlife, water quality, and sustainable recreation is communicated successfully, and that each visit is meaningful. While the Learning Lodge at the summit remains closed for now, she’s working on developing and fine-tuning interpretation and program offerings so that when the doors do open, visitors can feel safe in, connected to, and excited about the diverse wild community they live in.

Naomi grew up in the Northeast Kingdom region of Vermont and is now happy to call southern Maine “home,” but she still prefers Vermont maple syrup. And cheese, too, honestly. It’s not worth arguing with her about it. While many of her hobbies involve spending time outside (hiking, gardening, getting in the water sometimes), she does make sure to set aside some indoor time every week to play computer games. Stardew Valley and Terraria are her current favorites.

We will be trying a LEGO® Camp virtually this year! Camp will run for 2 weeks. We will have 3 Google hangout meetings, for those who want to join. The first will be on the first Monday of camp, to meet and talk about what we will do, and then we will “hangout” on both Fridays, to share what was made over the week, and to encourage each other to be creative.
During the 2 weeks of camp, we will release 2 challenges daily (Monday-Friday), using Google Classroom. We will video these, so kids can watch what the challenges are. Then, the kids can load up their creations to share on our own Google Classroom. We will offer support to anyone who needs some help.

Kids will be able to share videos and pictures to the Classroom. The Classroom will only be accessible to those who join LEGO® Camp. Participants will receive a special gift at the end of the program.
Instructor, Andrea Gould, York Middle School math teacher for the past 20 years, loves math and science, and bringing them together in creative, educational ways.

SEWING IS BACK! TIME TO GET YOUR SEWING JAM ON!
If you have your own machine, or access to one, this week we will use them to make a sundress, pajama pants or shorts, and a tote bag. Camp will include instructions on how to make your own patterns for the above projects. Every day you will be sent a video of Susan with step by step instructions and we will meet for Zoom check-ins on Monday July 20th, Wednesday July 22nd, and Friday July 24th. Zooming will allow us to answer questions. On Friday the 24th, we will spend our time showcasing what everyone has made all week. Zoom sessions will start at 10:00 am.

It is strongly recommended that you have a solid understanding of how to use your machine, or somebody in house who can help you if your machine starts misbehaving...
Susan will send out a supply list via email, once you have signed up.
There has been a generous donation of fabric this spring. We will let you know a place and time you can come check it out.

Pam Lombardi
Youth Enrichment Coordinator

Pam Lombardi has been with the Parks and Recreation for twenty-five years. She grew up on a boat in South Florida and summered in Marblehead, MA, where she worked at the Corinthian Yacht Club and met her husband Steve. They moved to York after visiting friends, fell in love with the town and decided this was where they wanted to raise their two young children. York was everything they had been looking for: great schools, small town feel, friendly people and a place to call home. Pam volunteered in the schools and was heavily involved in the parent group at York Middle School. While involved with the YMS parent group, they were approached by an organization that was giving out grants to start Youth Enrichment Programs. Pam felt this was extremely important and saw the need with the amount of children going home to empty homes, with both parents working. She succeeded in growing the program and recruited many community members who volunteered their time and taught classes. It was extremely popular with the kids and parents, and most children would do two or three classes a week. These classes ranged from study help and knitting to a very popular American Doll class, to cooking and much more! That was twenty-nine years ago.

After seeing the success the program had, Pam was approached by the York Parks and Rec. Dept. and asked her to start the Youth Enrichment Summer Camps. It seemed like a valuable addition to the Rec. Dept. and it helped balance out the already great options available. We started out small and worked up to where we are now, offering many choices for families with children ages five to teen.

Pam has worked for the York School District for twenty-five years. She has watched children go through the school system and enjoy the programs the Rec. Dept. offers. Pam says she has her fun job of teaching kids during the school year and then has her job of creating interesting, educational and enjoyable camps for kids during the summer that brings them back year after year. As Pam stated, "I'm proud of what the program has evolved into and it is the best of both worlds. I could not have asked for a better job or responsibility to have these past twenty-five years."

Adopt a Native Plant Bed!

Is your group or organization looking for a volunteer opportunity? Mount A is seeking seasonal volunteers to help us care for our native plant beds!

Native plants are adapted to local environmental conditions, provide vital habitat, help maintain species diversity, and are kept in check by natural succession.

Volunteers will "adopt" a summit plant bed and take responsibility for it upkeep (weeding, mulching, etc.). Once trained, adopters can work at their own pace and on their own schedule throughout the season. A time commitment of one complete growing season required (approx. May-Sept.

2. Outdoor Lighting Ordinance: The purpose of this amendment is to implement Comprehensive Plan goals of setting standards to lessen outdoor lighting impacts from non-residential uses protect the Town’s rural character and natural resources. The proposed ordinance also encourages outdoor lighting practices that will minimize light pollution, glare, light trespass and sky glow in order to preserve the night sky, increase safety and prevent lighting nuisances from residential and non-residential uses on neighboring private property and the public right of way.

Lighting Standards for Signs: The purpose of this amendment is to increase safety on York’s roadways by reducing glare and driver distraction, to lessen light spillover/trespass on public and private property, and minimize light pollution and sky glow in order to preserve the night sky. The amendment also seeks to implement the Comprehensive Plan goal that specifically recommends that signs should complement the desired appearance of an area, be built from quality materials and not be lit from within.

ARTICLE TEN-II
OUTDOOR LIGHTING ORDINANCE

10-II.1 Purpose

The purpose of this ordinance is to:

a) Encourage outdoor lighting practices that will minimize light pollution, glare, light trespass and sky glow in order to preserve the night sky, increase safety and prevent lighting nuisances on properties and the public right of way;

b) Conserve energy and resources while maintaining nighttime safety, utility, security, and productivity;

c) Preserve the visual and natural character of the Town of York by enhancing the ability to view the night sky.

d) Reduce excessive illumination that can have a detrimental effect on plants and wildlife.

10-II.2 Definitions

- CORRELATED COLOR TEMPERATURE (CCT): The perceived color of the light emitted by a lamp, expressed in kelvin (K) units. The lower the kelvin rating, the "warmer" or more yellow the light; the higher the rating, the "cooler" or bluer the light.

- ESSENTIAL LIGHTING: Light used for a specified period that is necessary for a specific purpose while said purpose is actively being served. This includes lighting that is necessary to promote location identification, public circulation, public safety, and fully shielded security lighting.

- FIXTURE: The complete lighting assembly that houses the lamp or lamps and can include all or some of the following parts: a housing, a mounting bracket or pole socket, a lamp holder, a ballast, a reflector or mirror, and/or a refractor or lens; also referred to as a "luminaire."

- FOOT-CANDLE: The unit of measure expressing the quantity of light received on a surface. One foot-candle is the illuminance produced by a candle on a surface one-foot square from a distance of one foot.

- FLOOD LIGHT: Any light fixture or lamp that incorporates a reflector or a refractor to concentrate the light output into a directed beam in a particular direction.

Draft Amendment to be voted in November 2020
DRAFT - June 18, 2020
- LIGHT POLLUTION: Any adverse effect of artificial light including, but not limited to, glare, light trespass, skyglow, visual clutter, excessive or unnecessary lighting, or any artificial light that unnecessarily diminishes the ability to view the night sky or is disruptive to the natural environment.

- LIGHT TRESPASS: Light from an artificial light source that falls beyond the property that it is intended to illuminate.

- LUMEN: The unit of measurement used to quantify the amount of light produced by a lamp or emitted from a fixture (as distinct from "watt," which is a measurement of the electrical power). For the purposes of this ordinance, measurements in lumens shall refer to "initial lamp lumens" as rated by the manufacturer when the lamp is new, as listed on the packaging.

- LUMINAIRE: See fixture.

- NONESSENTIAL LIGHTING: Lighting which is unnecessary for pedestrian passage or other tasks and therefore not generally useful (i.e., decorative and landscape lighting). This includes lighting intended for a specific task or purpose when said task or purpose is not being actively performed (e.g., parking lot illumination and wall-mounted perimeter lights after business hours).

- NUISANCE LIGHTING: Outdoor lighting that results in excessive illumination levels on adjoining properties such that:
  a) Illuminance at or beyond a property line abutting a residential parcel, nature preserve, natural resource protection area, or waterway exceeds 0.2 foot-candles as measurable from any orientation of the measuring device.
  b) Illuminance at or beyond a property line abutting a nonresidential property or public right-of-way exceeds 0.5 foot-candles as measurable from any orientation of the measuring device; or
  c) Glare (as defined in this section) light occurs.

- OUTDOOR LIGHTING/LIGHT FIXTURE: An outdoor electrically powered illuminating lamp or similar device used for lighting structures, parking lots, pathways, service canopies, recreational areas, signs or other similar outdoor lighting uses.

- SHIELD: An opaque device that is attached to a light fixture to prevent light from being emitted in certain directions.

- SKYGLOW: The brightening of the night sky or the overhead glow from artificial light that is directed upward or from light reflected upward from the ground or off other surfaces. Skyglow is caused by the reflection of light off moisture and dust particles in the atmosphere, reducing the ability to view the natural night sky.

- RECREATIONAL LIGHTING: Lighting used to illuminate sports fields, ball courts, playgrounds or similar outdoor recreational facilities.

- UNSHIELDED FIXTURE: A fixture that allows light to be emitted above the horizontal either directly from the lamp or indirectly from the fixture or reflector. Any fixture not full cutoff.
amount to a public or private nuisance and must be compatible with the
zone requirements in which it is located.

d) *Indoor/interior lighting.* This article does not regulate indoor/interior
lighting. However, light trespass from indoor/interior lighting that causes
glare or nuisance lighting on adjacent properties is prohibited.

e) *Conflict.* In case of conflict between this Article and other local or state
ordinances/requirements, the most restrictive shall apply.

10-H.4  Exempt and prohibited outdoor lighting

f) *Exempt outdoor lighting.* The following are exempt from the provisions of
this article:

1) All temporary emergency lighting determined to be necessary by the
Police Chief, Fire Chief, Public Works Director, other emergency
service providers or their designees.

2) Low wattage or low voltage temporary decorative lighting used for
holidays, festivals, and special events, provided they do not pose a
safety issue or nuisance due to light trespass or glare.

3) Flag uplighting, provided any such flag is not used for advertising
purposes and that the light is a narrow beam aimed and shielded to
illuminate only the flag.

4) Underwater lighting used for swimming pools, provided such
lighting meets all relevant electrical codes.

5) State or Federal regulated lighting such as airports, towers requiring
lighting, highway signage and traffic signals, etc.

6) Lighting installed to illuminate public monuments, provided that the
light levels do not exceed 2 foot-candles on any light color
monument surface or 4 foot-candles on any dark color monument
surface.

g) *Prohibited outdoor lighting.* The following outdoor lighting shall not be
permitted within the Town as of the effective date of this article, except as
exempt above:

1) Searchlights, except those used for governmental or emergency
purposes.

Draft Amendment to be voted in November 2020
DRAFT – June 18, 2020
Page 13
d) **Flood Light.** Flood lighting is discouraged, and if used, must be shielded to prevent glare for drivers or pedestrians, light trespass beyond the property line, or light above a 90-degree, horizontal plane.
e) **Mounting height:**

1) Building or structure. Outdoor lighting fixtures shall not be installed at a height greater than 12 feet from finished grade to the lowest light-emitting part of the fixture, except for fully recessed soffit lighting that otherwise complies with this article.

2) Free-standing pole. The Planning Board may consider heights of outdoor lighting fixtures up to but no greater than 15 feet from finished grade to the lowest light-emitting part of the fixture, unless it is demonstrated to the Planning Board's satisfaction that a greater mounting height would better accomplish the purposes of this article.

f) **Setback:** Freestanding lighting poles placed within 10 feet of side and/or rear property lines shall not exceed 10 feet in height to the lowest light emitting part of the fixture and shall have full-cutoff fixtures.

g) **Time Limits for Outdoor Lighting:**

1) Nonessential outdoor lighting and all outdoor lighting located more than 50 feet from any building or outdoor prod. display or storage area shall be turned off by 11:00 PM or no later than 30 minutes after the business closes, whichever is later, and remain off for the remainder of the night or until the business reopens. Daylight illumination is prohibited by 10-H.4.b.7. The Planning Board may waive this standard if the need for keeping outdoor lights on later meets the purpose and intent of this article and that public safety considerations are being met. Decorative holiday lights are exempt in accordance with Subsection 10-H.3.a.2.

2) Essential lighting for operation after the business closes should not be brighter than necessary for safety and security purposes and should be controlled by motion sensors wherever practicable.

h) **Canopies for Business:** Canopies for businesses including, but not limited to, bank drive-throughs and gas stations. Luminaires mounted on a canopy shall be recessed in the ceiling of the canopy so that the lens cover is recessed or mounted flush with the ceiling and fully shielded. Luminaires shall not be mounted on the sides or top of the canopy.

i) **Outdoor Display Areas:** Commercial/industrial outdoor retail display areas, including, but not limited to car dealerships or other vehicle commercial uses:

DRAFT – June 18, 2020
Page 17
m) Submission requirements, photometric plans

A Lighting Plan shall be included as part of a site plan or subdivision application, indicating the location of each proposed outdoor lighting fixture with projected hours of use. For a residential subdivision, the lighting plan is only required to cover the illumination of subdivision roads and other common areas. The Lighting Plan shall be stamped and certified by a Maine licensed professional, such as an architect or engineer. The Lighting Plan must include a KEY to the proposed lighting that provides the following information:

1) Type and number of luminaire equipment (fixtures), including the "cut off characteristics" and indicating manufacturer and model number(s).
2) Lamp source type (i.e. LED), lumen output, and wattage.
3) Mounting height with distance noted to the nearest property line for each luminaire.
4) Types of timing devices, or other adaptive controls such as a motion sensor, used to control the hours set for illumination, as well as the proposed hours when each fixture will be operated.
5) Lighting manufacturer-supplied specifications ("cut sheets") that include images of the fixtures, indicating the certified "cut off characteristics" of the fixture.
6) For all plans of more than three fixtures: A Calculation Summary indicating foot-candle levels on the lighting plan, noting the maximum, average, and minimum, as well as the uniformity ratio of maximum to minimum and average to minimum levels.
7) The photometric plan shall show the extent of the areas designed and intended for lighting, and within those specific areas, plot the light levels in foot-candles on the ground given the designated mounting heights for the proposed fixtures. Maximum illuminance levels should be expressed in foot-candle measurements on a grid of the site showing foot-candle readings in every five or ten-foot square. The grid shall include light contributions from all sources (i.e. pole mounted, wall mounted, sign, and streetlights.) The photometric plot shall extend to all lot lines or as necessary to reach 0 (zero) foot-candles.
8) Certification. All lighting systems be designed and certified by a Maine licensed engineer as conforming to all applicable restrictions of this Article before construction commences.

n) Illuminated signs: Illuminated signs must not produce glare and are otherwise governed by Article 16 of the Zoning Ordinance.
10-H.7 Waivers

The Planning Board may waive any portion of this Article for non-residential uses, multi-family dwellings or subdivisions if the Planning Board determines in so doing, will not jeopardize the purpose and intent of this ordinance.

10-H.8 Procedures, penalties for offenses

All violations of this ordinance shall be subject to Article 19: Enforcement and Violations and are subject to other applicable ordinances and regulations as specified herein.
16.4.2 Light levels shall be deemed acceptable if they do not exceed a factor of 3 above the ambient light intensity at any point on the ground when measured with an incident light meter and the following procedure:
   a. The intensity of the sign illumination, in foot candles, is measured with all normal background and ambient illumination on.
   b. With the sign turned off, the same measurement is repeated.
   c. The ratio of the measurement in (1) to that in (2) shall not exceed 3.

It shall be the responsibility of the applicant to provide documentation that proposed sign lighting meets the above maximums.

16.4.3 Except in the case of permitted and/or grandfathered neon signs, LED lights shall be the source of sign illumination, unless it can be demonstrated that another bulb type is equal or greater in energy efficiency.

16.4.4 Illuminated signs shall be constructed and erected in such a manner as to deflect light away from residential properties and public roads.

Amendment: Amend Section 16.9 Prohibited Signs and Displays specifically 16.9.3 with the following:

16.9 Prohibited Signs and Displays

16.9.1 Billboards, streamers, pennants, ribbons, spinners or other similar devices shall not be displayed.

16.9.2 Banners, except as specified under Temporary Signs, or as permitted by the Selectmen’s Policy on Banner Placement.

16.9.3 Flashing, moving or animated signs, movable electric signs, changeable signs, intermittently lit signs, digital, and signs with variable color lighting or signs that display electronic images or video are not permitted. Signs indicating fuel prices, time and/or temperature are permitted provided they meet the other provisions of this Section.

16.9.4 Neon or gas filled tubular signs are prohibited in all areas of Town except in the YBVC Zoning District where they are permitted as window signs, blade signs, or wall signs.

16.9.5 A string of lights shall not be used for the purpose of advertising or attracting attention on non-residential properties, except that holiday lighting shall be permitted on non-residential properties from November 1 through January 10 of each year, and low intensity landscape lighting shall be permitted year-round. Residential lighting is not governed by this lighting standard.

SUBJECT: Proclamation Against Racism, Discrimination and Bigotry

DISCUSSION OF OPTIONS AVAILABLE TO THE BOARD: Action on the proclamation was postponed on July 6th.

I am hopeful the Board will review the attached proclamation, make whatever changes it sees fit, and adopt the proclamation as revised. I will then print a copy for signatures.

My expectation is that we will provide a copy of this to every Town official and employee, will have these posted in all the Town’s public buildings, and will post it in a prominent spot on the Town web site. Other ideas are of course welcome.

RECOMMENDATION: adopt the proclamation

PROPOSED MOTION: I move to adopt the Proclamation Against Racism, Discrimination and Bigotry, and direct the Town Manager to distribute the Proclamation and to report back to the Board about this distribution.

PREPARED BY: [Signature]  Stephen H. Burns, Town Manager
Proclamation Against Racism, Discrimination and Bigotry

Whereas:

1. Racism, discrimination and bigotry are destructive of community; and
2. Everyone has the right to live peacefully, enjoy all the community has to offer, raise their family, and seek economic and academic opportunities free of racism, discrimination and bigotry; and
3. A strong, healthy, sustainable community includes and embraces people of every color, race, ethnicity, creed, sexual orientation and gender identity; and
4. Historic patterns and institutions have created an un-even playing field which persists to this day with respect to those who have been the subject of racism and discrimination; and
5. Traditional public school curricula – what is taught, how it is taught, and how it is prioritized – has been whitewashed; and
6. Institutional policies and practices may intentionally or inadvertently create or reinforce racism and discrimination; and
7. Active effort is required to combat racism, discrimination and bigotry; and
8. Great social change requires leadership and an on-going organization-wide commitment in order to succeed.

Now therefore:

1. The Town welcomes people of every color, race, ethnicity, creed, sexual orientation and gender identity.
2. The Town, its officials and employees, shall actively combat racism, discrimination and bigotry by addressing issues immediately.
3. The Town commits to identify and eliminate anything within its control that supports or perpetuates systemic or institutional racism or discrimination.
4. The Board of Selectmen shall request the School Committee engage with the organizers of the June BLM protest to address their demands as expressed in, “Addressing Racism Within York Schools: A Petition.”
5. The Town shall actively train its officials and staff on an ongoing basis in matters of racism, discrimination, bigotry, implicit and explicit bias, white privilege, white supremacy, intersectionality and other such matters, and shall offer this training to other community institutions.

Signed by the York, Maine Board of Selectmen on July 13, 2020.

SUBJECT: Hazard Pay for First Responders

DISCUSSION OF OPTIONS AVAILABLE TO THE BOARD: On March 15th, 2020 Governor Janet Mills declared a State of Emergency in response to the Coronavirus pandemic. On March 19th, 2020 the Town of York closed its doors to the public and implemented its emergency response followed by a Local Declaration of Emergency on April 2nd. From March 19th to June 1st Town facilities remained shuttered to the public while staff worked behind closed doors or from home. During this time our first responders continued to respond to calls and serve the public while also navigating the new threat of a COVID-19 exposure. Quickly changing protocols and procedures had to be adopted while still continuing to serve the needs of our community and keep the public safe. Our first responders have been on the front lines of this pandemic from the start and have not only had to deal with an substantial increased risk to themselves but also their families. We are asking that the Board support a one-time Hazard Pay $1,000 stipend for our full-time police force, dispatchers, firefighters, and a $250 stipend for call firefighters. The cost for 40 full time staff and 34 call firefighter would be $48,000.

RECOMMENDATION:

PROPOSED MOTION: I move to approve a one-time $1,000 Hazard pay stipend for our full-time first responders and a $250 stipend for call firefighters.
