MEMORANDUM

DATE: November 30, 2020

TO: Robin Cogger, Director of Parks and Recreation
Cc: Don Neuman, Superintendent York Water District

FROM: Deputy Chief Owen T. Davis *OTD*

SUBJECT: Mount Agamenticus Parking and Restroom Improvements

After speaking with both of you and reviewing the Town of York and York Water District preliminary drawings for the Mt. Agamenticus parking and restroom Improvement plans, I would like you both to know that I was very impressed with this project. As we have all seen a dramatic increase in the recreational usage of Mt. Agamenticus, the York Police Department has been increasingly concerned about several safety issues especially pedestrian safety. This plan would dramatically increase the safety for all who visit Mt. Agamenticus. The plan allows access to the property while removing the parking issues that we have seen on Mountain Road. The York Police Department is in full support of this project and as stated above, believes it will dramatically improve traffic safety in that area as well as improved access to all emergency vehicles.
