Subject: YORK PADDLE BALL - SITE PLAN

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

DeCarlo,

It is unfortunate that you can not find a Peer Engineer for the sound study we presented.

We will be updating the site plan to address comments discussed during the site walk and from the Public Works director.

The Public Works director has indicated that he would like to have a light at the entrance and exit, we will add that to the plan with a timer to shut off the light when the facility is closed.

We would like to request that this be a condition of approval for final that all plans be revised to address the minor comments.

The proposed changes do not alter the intent of the design.

Please let me know how many paper copies you may need and when.

Geoff
