Meeting Call to Order: 2:25pm Caitlynn 2<sup>nd</sup> Veronica

Discussion

Taylor update: the submittal of the ordinance was required today in order to provide due notice in the paper regarding the public forum so no edits can be made to the ordinance and it has been submitted. Taylor finding out if can make some amendments. Update: Per the town manager, we can edit and remove but not add more restrictions or make material additions

There had been discussion of removing cups from ordinance so it's a question can that still be adjusted.

Speakers at the selectboard meeting- 1 student, 1 business requested to speak. James also would like to speak. He did a summation of the existing ordinances across the United States regarding single use plastic and will speak on a summary of it.

Motions: None
