Introduced Owen Davis to committee – chief of police department. Spoke about addressing underlying needs and collaborating with Kittery and Eliot. Police department has seen an increase in violence, utilizing deescalating techniques.

Anne asked how we can support the police department with accessing a social worker for the department – look at the budget to see if there are financial opportunities for social workers and psychological support. Questions regarding sufficient support for police officers were asked. The department hires a psychologist who participates in training and provides support to police who may need emotional support. Officer wellness program has been initiated – the expectation is to ask for help if you need it. Budgeting for recruitment and retention, trainings – would like the opportunity to answer more questions regarding training and wellbeing. Owen Davis encouraged reaching out with any additional questions.

Discussion of setting up another Coffee with A Cop – John will follow up to set a date, hopefully before May. Coffee with a Cop could be a great opportunity to have a conversation and bring up more in-depth questions.

James Kences will be present next month for April meeting.

Decarlo Brown will be attending CCRAB May meeting.

At this time, the rest of the departments are still being scheduled to participate in future meetings.

ACTION: Use Libbie's agenda format going forward.
