Topics Discussed:

1. **Planning for meeting with York Police Department on September 4:***
Our Committee hopes to work with YPD to improve walking and cycling safety in York. The committee identified the following as general topics we would like to discuss:

- What is the perspective from the patrols on issues related to cyclist and pedestrian safety? What is working? What needs to change?
- How can we educate the public - motorists, cyclists, and pedestrians - on the rules and responsibilities of all parties on shared roads?
- Can we actively participate in the statewide Vulnerable User Safety Enforcement (and Education Day)? Including prior publicity and summary of the day's activities.
- Feedback on hands free law enforcement early results.
- What issues do you see with current and future traffic ordinances? e.g. skateboards, scooters, e-bikes, bike-share programs
- We have been active with the elementary schools on bike safety education and bike rodeos. Great support from SROs. What can we do in the middle and high schools to promote safety?
- We like the sign boards on Route 1. Hope we can build on this effort.

2. **Signage and road marking:** Three foot law, Share the Road, Sharrows, and Bikes May Use Full Lane signage: The Committee will continue to work with Public Works and Maine DoT to formalize agreements and install signage and road markings. We will work to revise the signage list detailing where signs will be placed. Once complete, DPW will request signs from Maine DoT.

3. **Committee Schedule:** The September 18 meeting will consist of a site visit to the Davis Property and the land behind the First Parish Church. The focus of the walk will be on existing and proposed trails.

4. Minutes were approved for August 21 meeting and will be submitted for posting on the York Town web site.

**Next Meeting:** September 18 at 1:00: This meeting will be a site walk on existing and proposed trails on the McIntire Woods and behind the First Parish Cemetery.

**Agenda:**
Site walk on the McIntyre/Davis property and the trails behind First parish Church. The purpose of the walk is to acquaint members of possibilities for non-motorized trails to support active transportation, provide for recreation, and connect neighborhoods, churches, schools, Town Offices, Library, and businesses. Off road trails are a stated goal in the York Comprehensive Plan.
