8. National Defense Monument (NDM) Update; Tom Spencer. Tom met with Todd Fredericks. There remains division within the Board of Selectmen as to placement of the NDM. Tom is suggesting that he will meet with individual members one at a time to learn more about the obstacles moving forward. Apparently, the biggest contention is seeing the NDM set in an upright position. The CVA has a solution that's been documented during past meetings. It simply involves laying the NDM down in a 90-degree angle, supported by granite. TBC.
