## ZONING ORDINANCE AMENDMENT YORK BEACH GREENWAY DISTRICT ARTICLE 10-I CHARACTER-BASED ZONING

**PUBLIC DRAFT**

# PREFACE

## INTRODUCTION

This Preface describes basic concepts of Character-Based zoning and typical Character Districts that may be included in a Character-Based ordinance.

This Preface is not part of the Town of York, Maine Zoning Ordinance or Article 10-I to which it is attached.

## WHAT IS CHARACTER-BASED ZONING?

Character-Based zoning represents a change in the way that the built environment is regulated. This shift is necessary because the conventional, use-based approach to zoning has been shown to be ineffective for regulating diverse, context-sensitive, mixed-use environments. The Town of York is implementing Character-Based regulations specifically for the York Beach Greenway District to help achieve the overarching goals of sustainability, innovation, recreation, economic development, walkability, and improved quality of life.

Character-Based codes foster predictable built results and a high-quality public realm. Unlike conventional land regulations, Character-Based codes use the intended form and character of a place as the organizing principle, or framework, of the code, rather than focusing predominantly on use. They focus on how development relates to the context of the surrounding community or neighborhood, especially the relationships between buildings and lots (the private realm) and the thoroughfare (the public realm).

Character-Based ordinances regulate a series of important elements to create a high-quality place. Those elements include:

At the Building, Lot, & Building Site scale, standards covering:

- Lots
- Building Placement and number
- Building Facades
- Private Frontage
- Building Form

- Building Type
- Use
- Encroachments
- Screens, Streetscreens, & Buffers
- Vehicular Parking
- Non-Building Components (HVAC, pools, etc.)
- Loading Space
- Trash Receptacles
- Private Lot Landscaping & Fencing
- Private Lighting

At the Development Site scale, standards covering:

- Thoroughfares
- Alleys
- Pedestrian Ways
- Bikeways
- Public Lighting
- Public Planting
- Blocks
- Civic Space

The elements listed above help provide greater predictability both to developers and the Town about the final results of development.

## CHARACTER DISTRICTS

Article 10-I establishes Character Districts for the York Beach Greenway District (YBGD), established along Short Sands Road, which range from natural to a mixed-use neighborhood center. They are based on a transect that describes a range of rural-to-urban places. The prototypical transect includes a natural district (T1), a rural district (T2), a suburban district (T3), a general urban district (T4), an urban center district (T5), and an urban core district (T6). See **Illustration P.1 (Rural-To-Urban Transect)** and **Table P.1 (Typical Transect Zone / Character Districts)**.

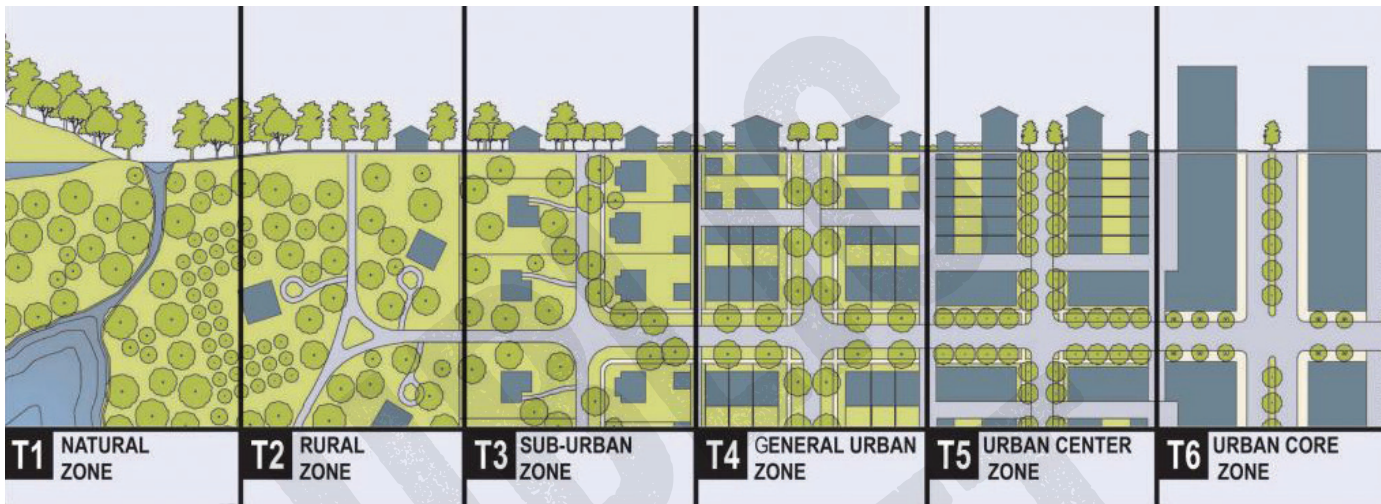

Article 10-I refers to transect zones as “Character Districts” or “CDs”. Because Article 10-I was prepared for the YBGD, it does not include the rural (CD-2), urban center (CD-5), or urban core (CD-6) districts, as they are not compatible

with the vision or character of the YBGD. Character District names have also been calibrated to reflect the existing character of the Town. See **Table P.2 (York Beach**

**Greenway District: Character District Descriptions).** The designation of each district is determined first by the character and form, intensity of development, and type of place, and then by the mix of uses within the area.

TABLE P.1 (TYPICAL TRANSECT ZONE / CHARACTER DISTRICTS)

TRANSECT ZONE / CHARACTER DISTRICT	DESCRIPTION
T1 or CD-1 (Natural)	This District consists of natural landscape approximating or reverting to a wilderness condition, including lands unsuitable for settlement due to topography, hydrology, or vegetation. This District typically does not contain buildings; however, small Civic Buildings or interpretive centers may be located here, which must be approved by the applicable governing body.
T2 or CD-2 (Rural)	This District consists of sparsely settled, primarily low density single-family detached Residential areas.
T3 or CD-3 (Sub-Urban)	This District consists primarily of a low density single-family detached Residential area in which Houses are the predominant Building Type. It has medium-to-deep front Setbacks and medium-to-wide side Setbacks. Its Thoroughfares have curbs and may include Sidewalks and/or street trees, and form medium-to-large blocks.
T4 or CD-4 (General Urban)	This District consists of a medium intensity area that has a mix of Building Types and residential, retail, office and other commercial Uses; there are medium, shallow or no front Setbacks and narrow-to-medium side Setbacks; it has variable private landscaping; and it has streets with Curbs, Sidewalks, and Thoroughfare trees that define medium-sized blocks.
T5 or CD-5 (Urban Center)	This District consists of higher density Mixed Use areas. It has a tight network of Thoroughfares with wide Sidewalks, street lights and regular street spacing, defining medium-sized blocks. Buildings are set close to the Sidewalks.
T6 or CD-6 (Urban Core)	This District consists of the highest density and height with a wide variety of Uses, located near and with connections and access to public transit. This District may be Adjacent to Civic Districts with significant Civic Spaces and important Civic Buildings. Its Blocks are defined by Thoroughfares with curbs, street trees, and wide Sidewalks, with small or no front Setback and no side Setbacks.

## SECTION 10–I.4.15

### WORKFORCE AFFORDABLE HOUSING.

#### 10–I.4.15.1 Requirement.

Any proposed Development that consists of ten (10) or more Dwelling Units shall include at least ten percent (10%) of the total number of Dwelling Units within the Development as Workforce Affordable Housing.

#### 10–I.4.15.2 Height Bonus.

A one (1) Story Building Height bonus above the applicable maximum Building Height otherwise permitted in the applicable District shall be allowed per Principal Building in a Development that consists of ten (10) or more Dwelling Units, if such Development includes at least twenty-five percent (25%) of the total number of Residential Units within the Development as

## SECTION 10-I.4: STANDARDS & REQUIREMENTS

Workforce Affordable Housing. Such Building Height Bonus shall not result in more than three (3) total Stories in CD-3 and four (4) total Stories in CD-4.

### 10-I.4.15.3 Calculations.

Calculations under this Section 10-I.4.15 shall be rounded to the nearest whole number.

### 10-I.4.15.4 Additional Requirements for Workforce Affordable Housing.

The additional following requirements shall be applicable to Workforce Affordable Housing under this Article 10-I:

- a. All Workforce Affordable Housing must comply with all standards and requirements applicable to non-Workforce Affordable Housing Development and Buildings.
- b. Workforce Affordable Housing units shall be integrated within the design of the applicable Development and Building and not be physically located away from non-Workforce Affordable Housing units.
- c. The exterior appearance of Workforce Affordable Housing units shall be indistinguishable from non-Workforce Affordable Housing units.
- d. The governance standards specified in Section 10-F.6 shall be followed for Workforce Affordable Housing Dwelling Units, and this requirement shall be noted in the approved plan and Findings of Fact.
- e. Any unit of Workforce Affordable Housing that is offered for sale shall be limited in its maximum resale price. The total resale price must not exceed the percentage of the property's fair market value (as determined by an independent real estate appraiser) that the seller paid for the property at the time of his or her purchase. For example, if the seller paid \$200,000.00 for a Workforce Affordable Home whose fair market value was determined to be \$250,000.00 (that is, 80% of the fair market value), then the maximum resale price of the property, if appraised at \$300,000.00, would be 80% of that

value, or \$240,000.00. Notwithstanding the above calculation, the resale price must not exceed an amount that is affordable for households of Moderate Income.
