

## **Town of York Community Center Feasibility Study**

The Town of York is conducting a community center feasibility study. As part of that study, the consultants will be reviewing Town owned and privately owned properties for a potential future community center to be constructed. If you own a parcel of land with 5 or more buildable acres and would like it to be considered as a potential community center location as part of this study, please email [parks-rec@yorkmaine.org](mailto:parks-rec@yorkmaine.org). Review preference will be given to locations in the Town growth zone with access to Public sewer and water. Review of submissions will start on June 7, 2024.
