

Unfragmented Blocks in 2000

York Comprehensive Plan
Inventory and Analysis
Existing Land Use Chapter
January 5, 2004

This map was created using information provided by Assessor's Office. The information displaying Unfragmented Blocks was designed and displayed by RKG Associates in the 2001 Build Out Study for the Town of York. The intruding parcels were determined by using the Assessor's database and are defined by finding parcels with construction after 2001 in the areas of the Unfragmented Blocks. This information was current as of January 05, 2004.
