

Water District Service Areas in 2005

York Comprehensive Plan
Inventory and Analysis
Utilities Chapter
March 22, 2005

This map was created using information from: York Water District; Kittery Water District; Kennebunk, Kennebunkport, and Wells Water districts.
The information displayed is used to demonstrate general areas of York served by municipal water.
Areas shown above 180 Foot elevations were taken from the current USGS survey contour lines.
Contour data of greater accuracy is not available at this time.
This area is delineated because it is infeasible to provide water service by the York Water District at this time.
