D1 Implementation Chart

D2 Goals and Strategies Charts by Topic Area

## D1 Implementation Chart

The Implementation Chart in this Appendix presents the Plan’s recommended strategies organized by topic areas. The chart offers an overall view of the Plan and makes it easy to assess the scope of strategies in any one topic area. These strategies, explained and listed in Chapter 5: Goals, Policies & Strategies, are gathered in one place here with other information helpful to implementation as described below. The Town can use this chart to plan ahead, assign tasks, and pursue funding. This chart can become an annual “report card” to track and report progress on Plan implementation. This information is also intended to assist departments, as well as boards, commissions, and committees, to anticipate the work under their purview. **It is important to note that the strategy descriptions have been condensed and abbreviated for readability and that Chapter 5 is the location for the full text of all of the Plan strategies.**

### The Chart

The Implementation Chart offers the following information:

#### Goal #

Goals addressed by this strategy are listed here

#### Strategy #

All strategies are numbered and organized by topic area.

#### Strategy/Action Summary

The descriptions are condensed here. See Chapter 5 for the full details on each strategy. Yellow highlights indicate strategies that are immediate action items.

#### Lead Implementer/Possible Collaborators

Lead implementer is indicated in bold and highlighted in green. Other parties who may collaborate or participate in implementation are listed on the line below, unhighlighted. These are suggestions and follow-up to gauge interest, and roles will need to be clarified with these parties as strategies are implemented. See the Stakeholders/Possible Collaborators key below for all parties listed.

#### Growth Cap Invest

Indicates whether this is a Municipal Growth-related Capital Investment (Y/N)

#### Cost Estimate/Staffing

Indicates estimated cost, if known, as well as estimate of staff and volunteer time. \*See note in the capacity section of Chapter 7 for more information on Town capacity related to estimated staff and resident volunteer time.

S = Town of York staff time\*

S/V = staff and volunteer time\*

C = Consultant

FTE = Town staff Full-Time Equivalent – suggested additional capacity/shared staff position needed

PTE = Town staff Part-Time Equivalent – suggested additional capacity/shared staff position needed

### **Possible Funding Sources/Partners**

Suggestions for funding sources or partners with funding/staff/expertise resources at time of Plan writing (April 2022). Note that these are suggestions, and no confirmation has been made about actual funding or other resources available.

### **Timing**

Immediate (0-1 yr) = 1

Near-term (1-3 yrs) = 2

Medium-term (3-6 yrs) = 3

Long-term (6-10 yrs) = 4

On-going = Indicates a strategy will take many years or continuous work for implementation
